RESPONSE TO RESTRICTION

Commissioner of Patents
PO Box 1450
Alexandria, VA 22313-1450

In response to the Restriction Requirement mailed May 12, 2005, Applicant elects, with traverse, Group I, Claims 1-8. With respect to the required species elections, Applicant submits that in addition to the types of valves recited in Claim 5 and identified by the Examiner, an alternate type of valve as defined by this invention includes a clamp as covered by Claim 4. Accordingly, Applicant respectfully elects the species disclosed by Claim 4, and submits that Claims 1-3 and 6-8 relate to this species.

As noted, this election is made with traverse. With respect to the relationship between Groups I and II, the Examiner asserts that the inventions are unrelated because "one is a type of a wing and the other is an inflatable raft or other such structure." Applicant respectfully submits that both sets of claims are directed to inflatable structures, Group I being the more generic.

However, the inflatable wings of Group II are examples of the type of inflatable structures claimed in Group I.

Also, the Examiner states Groups I and III are unrelated, noting "one is a raft and the other is a method of making a wing which has nothing to do with any inflatable structure such as a raft." Again, Applicant respectfully submits that Group I is directed to generic inflatable structures, including aerodynamic wings such as leading edge inflatable kites (see Claim 6, e.g.). As such, the method of Group III involves the use of an apparatus such as claimed in Group I.

Applicant believes that each issue raised in the Restriction Requirement has been addressed. If it would expedite matter, the Examiner is invited to contact Applicant's representative, Nathan Koenig, at (541) 806-2252.

Respectfully submitted,
Nathan Koenig
